Visit the recipe archives at KingArthurFlour.com

Pie Filling Enhancer, a combination of special starch, sugar, and ascorbic acid (to heighten fruit’s flavor), both thickens and improves the flavor of your fruit pie filling.

Substitute 1/4 to 1/2-cup Pie Filling Enhancer for the flour or starch called for in the recipe; use less for relatively dry fruit fillings, such as pears or apples, more for juicy fillings, such as berries or rhubarb. Reduce the sugar by 2 tablespoons for every 1/4-cup of Enhancer.

Yield: Enough for about 4 to 8 pies.

INGREDIENTS: Sugar, Modified Food Starch, Ascorbic Acid.
